INTRODUCTION

The Gardner Public School District (“District”) is committed to creating and sustaining a safe, caring, respectful learning environment. The District expects that all members of the school community will treat each other in a civil manner with respect for differences. The District is committed to providing all students and staff with an environment that is free from bullying, cyberbullying, and retaliation. This commitment is an integral part of our comprehensive efforts to promote learning, and healthy social development, and to prevent and eliminate all forms of bullying, cyberbullying, and retaliation, which can impede the learning process.

The Bullying Prevention and Intervention Plan (“Plan”) is a comprehensive approach to addressing bullying, cyberbullying, and retaliation. The Plan applies to all students and all school staff members, including, but not limited to, educators, administrators, school nurses, cafeteria workers, custodians, bus drivers, athletic coaches, advisors to an extracurricular activity, and paraprofessionals. The Principal in each building, or their designee, is responsible for the implementation and oversight of the Plan.

II. LEADERSHIP

Leadership at all levels of the District plays a critical role in developing and implementing the Plan in the context of other whole school and community efforts to promote positive school climates. Leaders have a primary role in teaching students to be civil to one another and promoting understanding and respect for diversity and difference.

A. Plan development:
   The District will, develop, adhere to, and biennially update the Plan in consultation with teachers, school staff, professional support personnel, volunteers, administrators, community representatives, law enforcement, students, parents, and guardians. Such consultation will include, but not be limited to, notice and a public comment period.

B. Data Collection
   The District will annually report bullying incident data to the Department of Elementary and Secondary Education (“DESE”) in the form and manner established by DESE. Reported data will include: the number of reported allegations of bullying or retaliation, the number and nature of substantiated incidents, the number of students disciplined, and any other information required by DESE. The Principal or designee will be responsible for overseeing the collection, maintenance, and reporting of such data. Additionally, at least once every four years, the District will administer the DESE student survey. The Principal or designee will be responsible for verifying completion of the DESE student survey and will forward completed surveys to the DESE.
III. PROHIBITION AGAINST BULLYING AND RETALIATION

The Gardner Public School District expects that all members of the school community will treat each other in a civil manner and with respect for differences. To this end, bullying and retaliation are prohibited. For the purpose of this Plan, references to bullying shall include cyber-bullying.

A. Acts of bullying, which include cyberbullying, are prohibited
   ● on school grounds and property immediately adjacent to school grounds; at a school-sponsored or school-related activity, function, or program whether on or off school grounds; at a school bus stop, on a school bus or other vehicle owned, leased, or used by a school district or school; or through the use of technology or an electronic device owned, leased, or used by a school district or school; and
   ● at a location, activity, function, or program that is not school-related, or through the use of technology or an electronic device that is not owned, leased, or used by a school district or school, if the acts create a hostile environment at school for the target, infringe on the rights of the target at school, or materially and substantially disrupt the education process or the orderly operation of a school.

B. Retaliation against a person who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying is also prohibited.

C. Nothing in this Plan requires the District to staff any non-school related activities, functions, or programs.

We understand that certain students may be more vulnerable to becoming a target of bullying or harassment based on actual or perceived differentiating characteristics, including; race, color, religion, ancestry, national origin, sex, socioeconomic status, homelessness, academic status, gender identity or expression, physical appearance, pregnant or parenting status, sexual orientation, mental, physical, developmental or sensory disability or by association with a person who has or is perceived to have one or more of these characteristics. Accordingly, in an effort to support vulnerable students and provide all students with the skills, knowledge, and strategies needed to prevent or respond to bullying or harassment, the Principal or designee will consider whether the following actions are required: (1) if the alleged target or the alleged aggressor is on an IEP or 504 Plan, the Principal or designee will notify the Team leader; (2) if the alleged conduct is on the basis of a protected class (i.e. race, gender, disability, etc.), the Principal or designee will need to follow the District’s Discrimination and Harassment Grievance Procedures, as well.

IV. POLICIES AND PROCEDURES FOR REPORTING AND RESPONDING TO BULLYING AND RETALIATION

A. Reporting bullying or retaliation
   ● Reports of suspected bullying or retaliation may be made by staff, students, parents or guardians, or others, to the principal or designee, and may be oral or written. Use of a formal Incident Reporting Form is not required as a condition of making a report. If the allegation involves the principal, or his/her designee, as the alleged aggressor, staff, students, parents/guardians, or others shall report it immediately to the superintendent. If the allegation involve the superintendent as the alleged aggressor, reports shall immediately be made to the school committee.
   ● The District expects students, parents/guardians, and others who witness or become
aware of an instance of bullying or retaliation involving a student as the target to report it to the principal or designee.

- A school staff member is required to report immediately to the principal or designee any instance of suspected bullying or retaliation the staff member becomes aware of or witnesses, including reports by students, parents/guardian, or other staff to them. Oral reports made by or to a staff member shall be recorded in writing by the principal or designee. Staff may use the initial referral form. The requirement to report to the principal or designee does not limit the authority of the staff member to respond to behavioral or disciplinary incidents consistent with school policies and procedures for behavior management and discipline.

- Reports made by students, parents or guardians, or other individuals who are not school or district staff members, may be made anonymously. Any report made anonymously will be thoroughly investigated, however, a student will not be disciplined on the basis of an anonymous report.

- The District will make a variety of reporting resources available to the school community including, but not limited to, an Incident Reporting Form, mailing and email addresses available on the district website www.gardnerk12.org, a list of telephone numbers (Appendix C).

- At the beginning of each school year, the District will provide the school community, including but not limited to administrators, staff, students, custodians, cafeteria workers, bus drivers, coaches, extracurricular advisors, and parents or guardians, with written notice of its policies for reporting acts of bullying and retaliation.

- A description of the reporting procedures and resources, including the name and contact information of the principal or designee, will be incorporated in student and staff handbooks, on the school and district website, and information about the Plan that is made available to parents or guardians.

- Nothing in this Plan shall be construed to limit an individual’s ability to call 911 where a threat to safety of a student and/or other individuals is present. If there is concern about anyone’s immediate safety, please call 911 first, then notify an administrator. Nothing in this Plan prevents an individual from reporting to the police a crime. Nothing in this Plan prohibits an individual from exercising their responsibilities as a mandated reporter under M. G. L. c. 119, sec. 51A and nothing in this Plan shall be used to deter an individual from reporting neglect or abuse to the appropriate state agency.

B. **Responding to a report of bullying or retaliation**

After receiving a report of bullying, the District may dismiss the allegation of bullying if, after considering all of the allegations as true, the allegations do not constitute bullying under Massachusetts law.

- Safety
  - a. Before fully investigating the allegations of bullying or retaliation, the principal or designee will take steps to assess the need to restore a sense of safety to the alleged target and/or to protect the alleged target from possible further incidents.
  - b. Responses to promote safety may include, but not are not limited to:
    - creating a personal safety plan
    - pre-determining seating arrangements for the alleged target and/or the alleged aggressor in the classroom, at lunch, or on the bus
    - identifying a staff member who will act as a “safe person” for the alleged target
altering the alleged aggressor’s schedule and access to the alleged target
Other steps to promote safety may be taken, as appropriate, if the alleged aggressor is a staff member
The principal or designee will take additional steps to promote safety during the course of and after the investigation, as necessary
c. The principal or designee will implement appropriate strategies, which may include the safety strategies listed above, for protecting from bullying or retaliation a student who has reported bullying or retaliation, a student who has witnessed bullying or retaliation, a student who provides information during an investigation, or a student who has reliable information about a reported act of bullying or retaliation.

C. Investigation
   ● Investigation
   a. After making a preliminary determination that the facts as alleged, if true, would meet the statutory definition of bullying or retaliation, the principal or designee will promptly commence an investigation.
   b. The principal or designee will gather evidence, including, if necessary, interviewing students, staff, witnesses, parents or guardians, and/or others.
   c. During any interviews, the principal or designee will inform, the alleged aggressor, alleged target, witnesses, and any other individual involved in the investigation, that retaliation is strictly prohibited and will result in disciplinary action.
   d. The principal or designee will maintain confidentiality during the investigation to the extent practicable, and in accordance with state and federal law regarding the privacy of student records and mandated reporting.
   
   ● Interviews may be conducted by the principal or designee, other staff members as determined by the principal or designee, and in consultation with the school counselor, as appropriate.
   ● Procedures for investigating reports of bullying and retaliation will be consistent with District policies and procedures for investigations. If necessary, the principal or designee will consult with legal counsel about the investigation.

D. Determinations
   ● The principal or designee will make a determination as to whether the preponderance of the evidence supports a finding that bullying occurred, and if so, what remedial action is required including any necessary responsive and/or disciplinary action.
   ● If bullying or retaliation is substantiated, the principal or designee will take reasonable steps to prevent recurrence and to ensure that the target is not restricted in participating in school or in school activities.
   ● Depending upon the circumstances, the principal or designee may consult with the students’ teacher(s) and/or school counselor, and the target’s or aggressor’s parents or guardians, to identify any underlying social or emotional issue(s) that may have contributed to the bullying behavior and to assess the level of need for additional social skills development.

E. Report of Bullying Substantiated
Notice to Parent/Guardian

a. Upon the determination that bullying or retaliation occurred, the principal or designee shall promptly notify the parents or guardians of the victim and the perpetrator. In the event that an allegation of bullying or retaliation by a staff member is substantiated, the principal or designee will promptly notify the staff member. The principal or designee may, but is not required to, contact parents or guardians prior to a determination. Notice shall be in the primary language of the home. Notice shall include the following information: determination and actions taken to prevent further acts of bullying or retaliation.

b. Notice for the victim’s parents/guardians shall include the following information about the Department of Elementary and Secondary Education Program’s (DESE’s) Problem Resolution System and the process for seeking assistance or filing a PRS claim: Any parent/guardian wishing to file a claim/concern or seeking assistance outside of the district may so with the Department of Elementary and Secondary Education Program Resolution System (PRS). That information can be found at: http://www.doe.mass.edu/prs, emails can be sent to compliance@doe.mass.edu or individuals can call 781-338-3700.

c. Notices to parents/guardians will comply with federal and state law regarding the confidentiality of student records, and other privacy laws and regulations. To this end, the principal or designee cannot inform the target’s parents/guardians about any disciplinary action taken against the aggressor, unless the information is directly related to the victim (e.g., stay away or no contact order).

Response

a. Upon the principal or designee determining that bullying or retaliation has occurred, the school will use a range of responses that balance the need for accountability with the need to teach appropriate behavior. The Principal or designee will consider what adjustments, if any, are needed in the school environment to enhance the victim’s sense of safety and that of others as well. One strategy that the Principal or designee may use is to increase adult supervision at transition times and in locations where bullying is known to have occurred or is likely to occur.

b. Teaching Appropriate Behavior Through Skill-Building

- Skill-building strategies, and other individualized interventions that the principal or designee may consider to remediate or prevent further bullying and retaliation may include:

  - Offering individualized skill-building sessions based on the school’s/district’s anti-bullying curricula.
  - Providing relevant educational activities for individual students or groups of students, in consultation with school counselors and other appropriate school personnel.
  - Implementing a range of academic and nonacademic positive behavioral supports to help students understand pro-social ways to achieve their goals;
  - Meeting with parents and guardians to engage parental support and to reinforce the anti-bullying curricula and social skills building activities at home;
● Adopting behavioral plans to include a focus on developing specific social skills;

● Making a referral to an appropriate related service provider; and/or

● Providing counseling or referral to appropriate services for aggressors and targets, and for appropriate family members of said students, regardless of their status under the law.

c. Taking Disciplinary Action

● If the principal or designee decides that disciplinary action is appropriate, the disciplinary action will be determined based on the facts and findings of the investigation, including the nature of the conduct, the age of the student(s) involved, and the need to balance accountability with the teaching of appropriate behavior. Discipline will be consistent with the Plan and the District’s code of conduct.

● Discipline procedures for students with disabilities are governed by the federal Individuals with Disabilities Education Improvement Act (IDEA), which should be read in conjunction with state laws and statutes regarding student discipline.

● Discipline procedures for staff members will be referred to the Human Resources Department consistent with applicable policies and procedures.

d. Follow-up with Target

● The Principal or designee will contact the target within a reasonable period of time following the determination and the ordering of remedial and/or disciplinary action, to determine whether there has been a recurrence of the prohibited conduct and whether additional supportive measures are needed. If there is evidence to support a recurrence, supportive measures will be implemented immediately.

F. Report of Bullying Unsubstantiated

a. If the principal or designee determines that a student knowingly made a false allegation of bullying or retaliation, that student shall be subject to disciplinary action.

● Promoting Safety for the Target and Others

a. The principal or designee will consider what adjustments, if any, are needed in the school environment to enhance the target's sense of safety and that of others as well. One strategy that the principal or designee may use is to increase adult supervision at transition times and in locations where bullying is known to have occurred or is likely to occur.

b. Within a reasonable period of time following the determination and the ordering of remedial and/or disciplinary action, the principal or designee will contact the target to determine whether there has been a reoccurrence of the prohibited conduct and whether additional supportive measures are needed. If so, the principal or designee will work with appropriate school staff to implement them immediately.

G. Notice

● Notice to Other Schools or District
a. If the reported incident involves students from more than one school district, charter school, non-public school, approved private special education day or residential school, or collaborative school, the principal or designee first informed of the incident will promptly notify by telephone the principal or designee of the other school(s) of the incident so that each school may take appropriate action. All communications will be in accordance with state and federal privacy laws and regulations, and 603 CMR 49.00.

- Notice to Law Enforcement
  a. Prior to the first day of school, the Superintendent or designee shall communicate with the police chief or designee regarding notices of bullying.

  b. If after receipt of a report of bullying or retaliation the Principal has a reasonable basis to believe that criminal charges may be pursued, the Principal shall immediately notify law enforcement and document her/his reasons. Notice shall be compliant with any established agreements between the District and law enforcement and consistent with DESE regulations, including that a Principal may disclose a determination of bullying or retaliation to law enforcement without consent of a student or their parent. The Principal shall communicate with law enforcement in a manner that protects the privacy of the victim, the aggressor, and any student witnesses to the extent practicable under the circumstances.

  c. The Principal is not required to report allegations or determinations of bullying or retaliation to law enforcement if such situations can be handled appropriately within the school.

  d. In deciding whether to notify law enforcement, the Principal may consult with the school’s resource officer and any other individual deemed appropriate by the Principal.

  e. If an incident of bullying or retaliation occurs on school grounds and involves a former student under the age of 21 who is no longer enrolled in school, the Principal or designee shall immediately contact the local law enforcement agency if the Principal has a reasonable basis to believe that criminal charges may be pursued against the aggressor.

- Notice to Other Parties Regarding Health and Safety of Student
  a. The Principal may disclose student record information about a target or aggressor to appropriate parties, including law enforcement, if knowledge of the information is necessary to protect the health or safety of the student or other individual. This is limited to instances in which the Principal has determined that there is an immediate and significant threat to the health or safety of the student or other individual(s), and is limited to the period of the emergency. Any of these disclosures must be documented by the Principal, including the reasons that the Principal determined that a health or safety emergency existed.

B. General teaching approaches that support bullying prevention efforts:

The following approaches are integral to establishing a safe and supportive school environment. These underscore the importance of our bullying intervention and prevention initiatives:

- setting clear expectations for students and establishing school and classroom routines;
- creating safe school and classroom environments for all students, including students who may be more vulnerable to becoming a target of bullying or harassment based on actual or perceived differentiating characteristics, including race, color, religion, ancestry, national origin, sex, socioeconomic status, homelessness, academic status, gender identity or expression, physical appearance, pregnant or parenting status, sexual orientation, mental, physical, developmental or sensory disability or by association with a person who has or is perceived to have one or more of these characteristics.
