

CITY OF GARDNER
DEPARTMENT OF COMMUNITY DEVELOPMENT AND PLANNING

Addendum No. 1
To The Complete Streets Project
Project Manual
2021-515a

Issued June 17th, 2021

The following changes, additions, and/ or clarifications are hereby made to the Technical Specifications Manual for the above captioned project under the provisions of “Section 4 – Addenda” of Section 000112, Information for Bidders, and become part of the Bidding and Contract Documents.

Acknowledge receipt of this addendum within Section 4 – Form for General Bid (00410-10). Failure to do so may subject the bidder to disqualification.

Bid Opening

As a result of the Purchasing Department having a limited capacity for visitors, the bid opening will be broadcast live, recorded, and then posted on the City of Gardner, MA YouTube page. A link will be emailed to all recorded holders on the morning of the bid opening. Bids submitted after this time will not be accepted.

Questions/Clarifications

The following questions were received from prospective bidders as of Thursday, June 17th, 2021. Questions are shown in standard type, and responses are shown in italics:

1. Please provide specifications and details for Item 823.50 – Photo Electric Control (Photo Electric Control Unit & Installation).
Photo Electric Control shall be PCOUT-000 by Leviton or equal. Provide mounting hardware and install per manufacturer’s recommendations. Lighting contactor in Nema 1 enclosure shall be C30CN by Eaton or equal. Mechanically and electrically held. Coordinate mounting locations with school department.
2. Please clarify if Item 823.50 – Photo Electric Control should be in the base bid or in the Alternate # 1?
The Photo Electric Control bid item is part of Alternate #1. Please see the attached revised Section 00410 – Form of General Bid.
3. Please clarify if the arrows & onlays can be thermoplastic versus inlayed tape paid under Item 864 – Pavement Arrow & Legends Reflectorized White – Inlay Tape. Normally arrows & onlays are

thermoplastic and the Helmeted Bicyclist Symbol & Sharrow are preformed thermoplastic, neither of which are inlaid.

864.04 Pavement Arrows and Legends Reflectorized White (Thermoplastic) is an acceptable alternative to Inlay Tape. Item is subject to MassDOT standards and specifications.

4. Please add an item for precast light pole bases under Alternate # 1.
Please see the attached revised Section 00410 – Form of General Bid. Item A812.09 has been added.
5. In lieu of Quazite handholes, can concrete handholes with standard handhole frame and covers be used due to long lead times for Quazite handholes?
Standard handhole frames and covers may be used in lieu of Quazite handholes.
6. Please confirm that the Gardner DPW will do any tree trimming necessary on the access road from the Middle School to Boulder Road.
Light pole locations may be shifted up to 5' in either direction to avoid tree branches. If necessary, tree trimming will be completed by Gardner DPW. Contractor to coordinate with Owner.
7. There is an ADS pipe crossing the access road, will the contractor be allowed to trench through the area to install the conduit without erosion control measures (straw wattles) being installed?
Provide erosion control as necessary for all excavations within the project area under bid item A767.8. See attached revised Section 00410 – Form of General Bid. Run conduit above or below existing pipe crossing. If damaged, repair existing pipe in kind.
8. Please clarify how rock will be handled if it is encountered while installing conduit/handholes/light bases on the access road?
If encountered while installing utilities on the access road, rock excavation will be paid for under bid item 144.
